

Quality Declaration

SIMONSWERK K 31... and 32... WF Hinges

SIMONSWERK hinges K 31... and 32... WF and their variant types are developed and produced according to the requirements of the international quality standard ISO 9001 and considering the environmental regulations of ISO 14001.

The hinges are designed by using proven technology and state-of-the-art materials for loads of 40 kg per pair on standard doors of 2 x 1 m. Using two pairs increases the load capacity to 50 kg. These hinges are used for decades and in thousands of buildings worldwide without problems.

Please see our general product information and consider the acknowledged rules of technology to achieve hassle-free operation and longevity.
